

### Instructions

First, highlight all the English words in the texts in one colour and all the German words in a different colour.

Then choose the right level of challenge from the tasks below:

---

- Copy out the text, translating the German into English.
- Copy out the text, translating the English into German.
- Copy out the text, translating the English into German, without the support of a dictionary or textbook.

My mother ist Lehrerin and mein Vater is a driver. Und ist my sister a student. I want to be a Lehrer, denn ich love children. I möchte to work in a school. An office wäre langweilig, in my opinion.

### Instructions

First, highlight all the English words in the texts in one colour and all the German words in a different colour.

Then choose the right level of challenge from the tasks below:

---

- Copy out the text, translating the German into English.
- Copy out the text, translating the English into German.
- Copy out the text, translating the English into German, without the support of a dictionary or textbook.

My mother ist Lehrerin and mein Vater is a driver. Und ist my sister a student. I want to be a Lehrer, denn ich love children. I möchte to work in a school. An office wäre langweilig, in my opinion.

### Teaching notes

This tangled translation is a fun way to give students more support with the task, which can be differentiated according to the instructions on p.1. Students will need two coloured highlighters, one colour for English and one for German. They can choose the correct level of challenge themselves or you can direct them, as appropriate.

### Answers

My mother is a teacher and my father is a driver. And my sister is a student. I want to be a teacher, because I love children. I would like to work in a school. An office would be boring, in my opinion.

*Meine Mutter ist Lehrerin und mein Vater ist Fahrer. Und ist meine Schwester Studentin. Ich will Lehrer werden, denn ich liebe Kinder. Ich möchte in einer Schule arbeiten. Ein Büro wäre langweilig, meiner Meinung nach.*
